

# Helping Babies Survive in Tanzania

A Gift Confirmation for Survival Services at Free Pentecostal Church of Tanzania Turiani

Prepared for Christian Brothers Moving & Storage  
Presented by May Thomsen

## Sustaining a Brighter Future for Babies in Tanzania

Survival interventions are the first phase of Compassion’s long-term holistic child development program that provides support from before birth up to age 22. When children get the attention they need, starting at the earliest stage possible, they receive the best opportunity to overcome poverty and achieve their God-given potential.

Your gift will make a positive difference for mothers and babies in Morogoro, Tanzania. Your generous support allows Compassion and its church partner, Free Pentecostal Church of Tanzania Turiani, to launch new lifesaving survival programming.

Your gift enables the church to train staff members and purchase supplies for the care of mothers and babies. Once the survival intervention launches, specialists provide practical and emotional support to expectant and new mothers to meet their and their babies most pressing needs.

Your gift supports important services like:

- One-to-one care from a Survival Specialist
- Basic nutrition and vitamins
- Pre- and postnatal care
- Skilled birth attendants
- Immunization
- Breastfeeding support and instruction
- Regular growth monitoring
- Supplemental food
- Spiritual guidance and support

### Compassion’s Proven Record of Success

Compassion’s simple-but-comprehensive approach to child survival has proven to be effective. In 2018:

- Over 9,400 babies were born to Compassion-assisted mothers.
- 100 percent of infants were monitored for nutrition, and treatment was offered to every baby who needed it.
- Over 91 percent of births were attended by a trained health care professional, compared to a global average of 78 percent.
- 93 percent of all newborns registered in Compassion’s Survival programs had a normal birth weight, compared with 72 percent in South Asia, 87 percent in sub-Saharan Africa and 91 percent in Latin America.<sup>1</sup>

# Your Support of Babies in Tanzania

Since 1999, Compassion has partnered with local churches in Tanzania to lift children out of poverty in Jesus' name.

Survival efforts began in the country in 2008, expanding into areas with the greatest need. There are more than 1,351 caregivers and 1,370 infants now participating in the program. Survival is crucial for infants in Tanzania. For every 1,000 live births, 40 babies die. The maternal mortality rate is 398 deaths for every 100,000 live births. Around 34 percent of children suffer from stunting.

## Free Pentecostal Church of Tanzania (FPCT) Turiani Student Center

**Church Partner**  
FPCT Turiani

**Gift Received: \$15,248.75\***

## Thank You for Partnering with Compassion

Thank you for your gift to save the lives of babies in Morogoro, Tanzania. Your generosity is a tremendous blessing to the caregivers and children enrolled in our program. You are providing them with practical resources to survive, and also demonstrating God's love for them and their families in a powerful way. May the Lord continue to bless you!
